

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The value of the work can be suggested only. Gradually but surely a widespread consciousness of the necessity of familiarity with China and the problems relating to that country is being awakened. Whether one desires to understand the domestic situation in China, China's international situation, or the implications of other states in the affairs of China, these volumes have become the principal printed source of information. Only one other work in English is comparable in this connection, namely, *Foreign Rights and Interests in China*, by Westel W. Willoughby, Baltimore, 1920. This volume, however, stands not as a rival but as a companion and guide to those under consideration. No longer is second-hand information forced upon the public: the sources of knowledge of a situation of vital importance to American commerce, industries, shipping, finance, and foreign relations are laid before the public in an open book.

EMERY J. WOODALL

Yale University.
